Course outline

Ideal for managing PRINCE2 projects

This course is ideal if you previously studied the old, 2005 version of PRINCE2 and need to understand how PRINCE2 has changed. It is

designed to help you achieve the PRINCE2 Practitioner qualification, which is widely regarded as essential for managing projects using PRINCE2.

The eLearning thoroughly refreshes your knowledge of PRINCE2 in around 15-20 hours. The classroom-based Practitioner training then builds on that knowledge by showing you how to apply the method to the different styles of exam questions. You will be well prepared to pass the Practitioner exam during the course.
