1. Introduction

The PRINCE2® Project Management Practitioner qualification is intended for project managers and aspiring project managers. It is also relevant to other key staff involved in the design, development and delivery of projects, including: project board members (for example, senior responsible owners), team managers (for example, product delivery managers), project assurance (for example, business change analysts), project support (for example, Project and Programme Office personnel), and operational line managers/staff.

The PRINCE2® Project Management Practitioner examination is intended to assess whether a candidate can apply and tailor the PRINCE2 Project Management method (as described in the syllabus below). A successful Practitioner candidate should, with suitable direction, be able to start applying the method to a real project but may not be sufficiently skilled to do this appropriately for all situations. Their individual project management expertise, complexity of the project and the support provided for the use of PRINCE2 Project Management in their work environment will all be factors that impact what the Practitioner can achieve.

2. Exam Overview

Material allowed	PRINCE2® Project Management Official Book	This is an 'open book' exam. The PRINCE2® Project Management Official Book should be used (and you can make notes inside the book), but no other material is allowed.
Exam duration	2 hours 30 minutes	Candidates taking the exam in a language that is not their native or working language may be awarded 25% extra time, that is, 188 minutes in total.
Number of marks	70 marks	There are 70 (part) questions, each worth 1 mark. There is no negative marking.
Pass mark	42 marks	You will need to get 42 (part) questions correct to pass the exam.
Level of thinking	Bloom's levels 3&4	'Bloom's level' describes the type of thinking needed to answer the question. For Bloom's level 3 questions, you need to apply your knowledge to a situation. For Bloom's 4 questions, you need to analyse the information provided and reason whether a course of action is effective/appropriate.
Exam format	Scenario, additional information & questions	You should read the 'Project Scenario' which gives background information about the project that the questions apply to. For at least one question, you will also need to use the 'Additional Information' which gives information about people who may be working on the project.
Question types	Classic & matching	The questions are all 'multiple choice'. There is a short description of a situation, and then a question. For the 'classic' questions (1 mark), you have a question and four options (A,B,C,D). For the 'matching' questions (3 marks) you have 3 pieces of information and you have to choose an answer for each from a list of 5 or 6 options.

3. Question Types

Example 'standard' question:

The project is in the 'XXX' process. The project manager has decided to do Y.

Was this an appropriate action for the project manager to take, and why?

- a) Yes, because XXX
- b) Yes, because YYY
- c) No, because XXX
- d) No, because YYY

Example 'Matching' question:

Here are three actions related to XXX

Which role (A-E) is responsible for each action? Choose only **ONE** role for each action. Each role can be used once, more than once, or not at all.

roject manager
eam manager
enior user
enior supplier
roject executive

Please see the sample paper for an example of the exam format and content.

4. Syllabus

The tables below give a summary of the concepts that are tested in the exam, and the main parts of the Official Book in which these are described. The book references refer to the section, but not the subsections within that section, unless specifically stated.

Learning Outcome	Assessment Criteria	Bloom's Level
1. Understand how to apply the PRINCE2 Project Management principles in context	 1.1 Analyse the application of PRINCE2 Project Management principles in context: a) Ensure continued business justification (2.1) b) Learn from experience (2.2) c) Define roles, responsibilities, and relationships (2.3) d) Manage by stages (2.4) e) Manage by exception (2.5) f) Focus on products (2.6) g) Tailor to suit the project (2.7) 	BL4
2. Understand how to apply	2.1 Assess whether an approach to leadership and management of teams is appropriate (3.3, 3.1)	BL4
effective people management	2.2 Assess whether an approach to leadership and management of change within a project, and people affected by a project, is appropriate (3.2, 3.1)	BL4
in successful projects	2.3 Apply the approach to the following:communications (3.4)people central to the method (3.5)	BL3
	 2.4 Apply the key management products required to support the people element of projects: communication management approach (3.4) change management approach (3.2) 	BL3
3. Understand how to apply and tailor relevant aspects of PRINCE2 Project Management practices in context	 3.1 Business case 3.1.1 Apply the PRINCE2 Project Management business case practice, demonstrating an understanding of: a) the key management products required to support the business case practice (5.5): business case PID: benefits management approach PID: sustainability management approach project brief b) The areas of focus for key roles associated with the business case practice (Table 5.1) c) Effective management and associated techniques (5.2, 5.3) 	BL3
	3.1.2 Analyse whether an approach to applying the business case practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (5.2, 5.3, 5.4, 5.7)	BL4

Learning Outcome	Assessment Criteria	Bloom's Level
Odtcome	3.2 Organization	Level
	 3.2.1 Apply the PRINCE2 Project Management organization practice, demonstrating an understanding of: a) the key management products required to support the organization practice (6.5): PID: project management team structure PID: role descriptions PID: commercial management approach b) The areas of focus for key roles associated with the organization practice (Table 6.4) c) Effective management and associated techniques (6.2, 6.3) 	BL3
	3.2.2 Analyse whether an approach to applying the organization practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (6.2, 6.3, 6.4, 6.7)	BL4
	 3.3 Plans 3.3.1 Apply the PRINCE2 Project Management plans practice, demonstrating an understanding of: a) the key management products required to support the plans practice (7.5): plan (project, stage, team and exception plans) project product description work package description b) The areas of focus for key roles associated with the plans practice (Table 7.1) c) Effective management and associated techniques (7.2, 7.3) 	BL3
	3.3.2 Analyse whether an approach to applying the plans practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (7.2, 7.3, 7.4, 7.7)	BL4
	 3.4 Quality 3.4.1 Apply the PRINCE2 Project Management quality practice, demonstrating an understanding of: a) the key management products required to support the quality practice (8.5): product description project log: product register PID: quality management approach project log: quality register b) The areas of focus for key roles associated with the quality practice (Table 8.2) c) Effective management and associated techniques (8.2, 8.3) 	BL3

Learning	Assessment Criteria	Bloom's
Outcome	Assessment Citteria	Level
	3.4.2 Analyse whether an approach to applying the quality practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (8.2, 8.3, 8.4, 8.7)	BL4
	3.5 Risk	
	 3.5.1 Apply the PRINCE2 Project Management risk practice, demonstrating an understanding of: a) the key management products required to support the risk practice (9.5): PID: risk management approach project log: risk register b) The areas of focus for key roles associated with the risk practice (Table 9.3) c) Effective management and associated techniques (9.2, 9.3) 	BL3
	3.5.2 Analyse whether an approach to applying the risk practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (9.2, 9.3, 9.4, 9.7)	BL4
	 3.6 Issues 3.6.1 Apply the PRINCE2 Project Management issues practice, demonstrating an understanding of: a) the key management products required to support the issues practice (10.5): PID: issue management approach issue register issue report b) The areas of focus for key roles associated with the issues practice (Table 10.2) c) Effective management and associated techniques (10.2, 10.3) 	BL3
	3.6.2 Analyse whether an approach to applying the issues practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (10.2, 10.3, 10.4, 10.7)	BL4

Learning	Assessment Criteria	Bloom's
Outcome		Level
	 3.7 Progress 3.7.1 Apply the PRINCE2 Project Management progress practice, demonstrating an understanding of: a) the key management products required to support the progress practice (11.5): project log: daily log project log: lessons log lessons report end stage report end project report checkpoint report highlight report exception report PID: digital and data management approach b) The areas of focus for key roles associated with the progress practice (Table 11.3) c) Effective management and associated techniques (11.2, 11.3) 	BL3
	3.7.2 Analyse whether an approach to applying the progress practice is effective and fit for purpose, taking into consideration: the PRINCE2 Project Management principles, and the effective management and associated techniques of the practice, and tailoring to the project's environment/context (11.2, 11.3, 11.4, 11.7)	BL4
4. Understand how to apply (and tailor) relevant aspects of PRINCE2 Project Management processes in context	 4.1 Starting up a project 4.1.1 Carry out the 'starting up a project' process, demonstrating an understanding of: a) The activities, inputs and outputs (Table 13.1, 13.4) b) The recommended roles and responsibilities within the process (RACI Table) (Table 13.2) c) How the practices are applied (Table 13.3) 	BL3
	4.1.2 Analyse whether the 'starting up a project' process activities, roles, and responsibilities are effective and fit for purpose, taking into consideration: tailoring to the project's environment/context, the PRINCE2 Project Management practices, and the purpose and objectives of the process (13.1, 13.2, 13.4, 13.5, 13.6, 13.7)	BL4
	 4.2 Directing a project 4.2.1 Carry out the 'directing a project' process, demonstrating an understanding of: a) The activities, inputs and outputs (Table 14.1, 14.4) b) The recommended roles and responsibilities within the process (RACI Table) (Table 14.2) c) How the practices are applied (Table 14.3) 	BL3
	4.2.2 Analyse whether the 'directing a project' process activities, roles, and responsibilities are effective and fit for purpose, taking into consideration: tailoring to the project's environment/context, the PRINCE2 Project Management practices, and the purpose and objectives of the process (14.1, 14.2, 14.4, 14.5, 14.6, 14.7)	BL4

Learning Outcome	Assessment Criteria	Bloom's Level
	4.3 Initiating a project	
	4.3.1 Carry out the 'initiating a project' process,	
	demonstrating an understanding of:	
	a) The activities, inputs and outputs (Table 15.1, 15.4)	BL3
	b) The recommended roles and responsibilities within	
	the process (RACI Table) (Table 15.2)	
	c) How the practices are applied (Table 15.3)	
	4.3.2 Analyse whether the 'initiating a project' process	
	activities, roles, and responsibilities are effective and fit	
	for purpose, taking into consideration: tailoring to the	BL4
	project's environment/context, the PRINCE2 Project	
	Management practices, and the purpose and objectives	
	of the process (15.1, 15.2, 15.4, 15.5, 15.6, 15.7)	
	4.4 Controlling a stage4.4.1 Carry out the 'controlling a stage' process,	
	demonstrating an understanding of:	
	a) The activities, inputs and outputs (Table 16.1, 16.4)	BL3
	b) The recommended roles and responsibilities within	DLS
	the process (RACI Table) (Table 16.2)	
	c) How the practices are applied (Table 16.3)	
	4.4.2 Analyse whether the 'controlling a stage' process	
	activities, roles, and responsibilities are effective and fit	
	for purpose, taking into consideration: tailoring to the	
	project's environment/context, the PRINCE2 Project	BL4
	Management practices, and the purpose and objectives	
	of the process (16.1, 16.2, 16.4, 16.5, 16.6, 16.7)	
	4.5 Managing product delivery	
	4.5.1 Carry out the 'managing product delivery' process,	
	demonstrating an understanding of:	
	a) The activities, inputs and outputs (Table 17.1, 17.4)	BL3
	b) The recommended roles and responsibilities within	
	the process (RACI Table) (Table 17.2)	
	c) How the practices are applied (Table 17.3)	
	4.5.2 Analyse whether the 'managing product delivery'	
	process activities, roles, and responsibilities are	
	effective and fit for purpose, taking into consideration:	
	tailoring to the project's environment/context, the	BL4
	PRINCE2 Project Management practices, and the	
	purpose and objectives of the process (17.1, 17.2, 17.4,	
	17.5, 17.6, 17.7)	
	4.6 Managing a stage boundary	
	4.6.1 Carry out the 'managing a stage boundary' process,	
	demonstrating an understanding of:	DI 3
	a) The activities, inputs and outputs (Table 18.1, 18.4)	BL3
	b) The recommended roles and responsibilities within	
	the process (RACI Table) (Table 18.2)	
	c) How the practices are applied (Table 18.3)	

Learning Outcome	Assessment Criteria	Bloom's Level
	4.6.2 Analyse whether the 'managing a stage boundary' process activities, roles, and responsibilities are effective and fit for purpose, taking into consideration: tailoring to the project's environment/context, the PRINCE2 Project Management practices, and the purpose and objectives of the process (18.1, 18.2, 18.4, 18.5, 18.6, 18.7)	BL4
	 4.7 Closing a project 4.7.1 Carry out the 'closing a project' process, demonstrating an understanding of: a) The activities, inputs and outputs (Table 19.1, 19.4) b) The recommended roles and responsibilities within the process (RACI Table) (Table 19.2) c) How the practices are applied (Table 19.3) 	BL3
	4.7.2 Analyse whether the 'closing a project' process activities, Roles, and responsibilities are effective and fit for purpose, taking into consideration: tailoring to the project's environment/context, the PRINCE2 Project Management practices, and the purpose and objectives of the process (19.1, 19.2, 19.4, 19.5, 19.6, 19.7)	BL4

5. Exam Specification

The PRINCE2® Project Management Practitioner examination will consist of four (4) sections with the following structure:

Learning Outcome	Weighting %
1. Understand how to apply the PRINCE2 Project Management principles in context	10%
2. Understand how to apply effective people management in successful projects	9%
3. Understand how to apply and tailor relevant aspects of PRINCE2 Project Management practices in context	51%
4. Understand how to apply (and tailor) relevant aspects of PRINCE2 Project Management processes in context	30%
Total	100%

Thank you for completing the PRINCE2® Project Management Practitioner course

Please take a few minutes to give us your feedback on your experiences from the course by completing the online course evaluation survey here.
